

## Lloyd's Consortium and Coverholder Numbers 2024

---

- [Introduction](#)
- [Summary of booklet updates](#)
- [List of all Numbers](#)
- [Current Numbers and Contacts](#)
- [Breakdown of Syndicates for current Consortia using C&C numbers](#)
- [Breakdown of Syndicates for current Coverholders using C&C numbers](#)

---

Any requests relating to the registration of new consortia, or the renewal of existing ones should be directed to the Velonetic Service Desk at [Service.Centre@dxc.com](mailto:Service.Centre@dxc.com)

Please note that this booklet makes a distinction between Lloyd's Consortia and Coverholders.

A consortium is defined in the Multiple Syndicates Byelaw as "a group of underwriters and, as the case may be, insurance companies who have agreed that in respect of a specific class of insurance business certain named or otherwise designated underwriters or insurance companies within that group may accept risks on behalf of all members of the group in accordance with the terms of the agreement between them".

The main object of consortium arrangements is to offer brokers fixed, pre-determined markets for specific classes of business, thus reducing brokers' placing expenses and making Lloyd's more attractive to them. The most common method of placing and processing such business is using a Consortium and Coverholder (C&C) number.

**It is important to understand that not every Consortium uses a C&C number to process, and not every number belongs to a Consortium.**

Third parties that hold a contract of delegation with syndicates are Coverholders, and in the UK Consortium and Coverholder (C&C) numbers can also be used for processing these binding authorities. This is typically where bureau processing of premiums and claims directly with participating syndicates is required, as opposed to settlement to the Coverholder.

A full list of syndicates for each current Consortium, or Coverholder, using a C&C number is included in this booklet.

The following important points should be considered before using one of the lists of underwriters:

- i) The signed lines all total 100%. These should be reduced where the C&C stamp is only writing a proportion of the risk, e.g. 50%.
- ii) The correct C&C number is identified from the slip.
  - a) A new C&C number may be used each year, e.g., IFC numbers 9002/6/15/31/49/67/103, and the subscribing underwriters and/or lines vary accordingly.
  - b) The same C&C number may be retained over several years of account although subscribing underwriters and/or their lines may vary accordingly. The inception date of open market risks, binding authorities, or lineslips determines the year of account and therefore which market applies. The information contained in sections 5 and 6 of this booklet relates to the Year of Account shown therein.

For information as to how to register a Consortium and Coverholder (C&C) number, please refer to the Velonetic market communication 2014/001 dated 2<sup>nd</sup> January 2014 a copy of which can be obtained from the Velonetic Service Desk (contact details on front page of this booklet).

## Outward Reinsurance

When Outward Reinsurance is processed as a composite reinsurance, details of all the syndicates should be entered on LORS. The normal rules for processing composite reinsurances apply.

## Lloyd's Europe Subsidiary

This booklet does not attempt to distinguish between numbers that are being used to underwrite risks on behalf of Lloyd's Europe Subsidiary, those that are reinsuring Lloyd's Europe Subsidiary, or those that are being used to underwrite risks where Lloyd's Europe Subsidiary are not involved. Please refer to the stamp(s) put down by the Consortium or Coverholder to determine which number, and therefore for which breakdown, applies.

## Summary of Booklet Updates

Date	Amendment made	Made by
22/08/2023	Renewing Lancashire Syndicates Limited Cargo Consortium 9329, 9885, 9886	NR
20/11/2023	Renewing Lancashire Construction Consortium 7709, 7710, 7711	NR

Please note that the above Consortium and Coverholder (C&C) number forms part of a mixed consortium stamp with the Company stamp TME T8000, where The Portia Consortium at Lloyd’s consortium stamp shows the company stamp under the Lloyd’s stamp.

The Leader of this consortium is Lloyd’s Insurance Company (Westfield) WSM 5319, who will place the C&C stamp for The Portia Consortium at Lloyd’s, reflecting 75% of the total signed line of the consortium. Below this stamp, there will be the Company stamp for TME T8000 for the remaining 25% of the total signed line of the consortium together forming the mixed consortium stamp.

Instruction for Bureaux submissions (LIRMA and Lloyd’s): Settlement against TME T8000 25% will be via central settlement via the IMR to the LIRMA Company Bureau. This must be submitted separately and must not be included in the Lloyd’s LPAN. The Lloyd’s consortium participation is already stated at 100% of the 75% Lloyd’s proportion as above. Together, the C&C Stamp and the Company participation forms 100% of the consortium’s participation for any risk bound by The Portia Consortium at Lloyd’s.

Please note that the above Consortium and Coverholder (C&C) number forms part of a mixed consortium stamp with the Company stamp Tokio Marine HCC H5605 where The Apollo Builders Risk Consortium at Lloyd's consortium stamp shows the company stamp under the Lloyd's stamp.

The Leader of this consortium is Lloyd's Insurance Company (Apollo Syndicate Management Limited) APL 1969, who will place the C&C stamp for The Apollo Builders Risk Consortium at Lloyd's, reflecting 75% of the total signed line of the consortium. Below this stamp, there will be the Company stamp for Tokio Marine HCC H5605 for the remaining 25% of the total signed line of the consortium together forming the mixed consortium stamp.

Instruction for Bureaux submissions (LIRMA and Lloyd's): Settlement against Tokio Marine HCC H5605 25% will be via central settlement via the IMR to the LIRMA Company Bureau. This must be submitted separately and must not be included in the Lloyd's LPAN. The Lloyd's consortium participation is already stated at 100% of the 75% Lloyd's proportion as above. Together, the C&C Stamp and the Company participation forms 100% of the consortium's participation for any risk bound by The Apollo Builders Risk Consortium at Lloyd's.

Please note that the above 9241 number forms part of a mixed company and Lloyd's consortium stamp where the consortium stamp shows the company stamp participation under the Lloyd's stamp. The Leader of this consortium this year is 2012 Arch the company participation is HDI Global Specialty SE Stockholm Branch.

Where the company participation forms part of the consortium, settlement against HDI Global Specialty SE Stockholm Branch's line 21.08393% signed line will be 100% of Order. The Lloyd's participation (signed lines stated above) is already stated at 100% of Order for the Lloyd's proportion (i.e. 100% Bureau Total Line for Lloyd's) and will form 78.91607% of the combined stamp'

Please note that the above 9000 number forms part of a mixed company/Lloyd's open market and Lloyd's consortium stamp where the consortium stamp shows the company stamp or the Lloyd's open market participation under the Lloyd's Consortium stamp. The Leader of this consortium this year is CVS 1919 OR LRE 3010 who will place either an open market Lloyd's stamp or a company stamp.

Where the company participation forms part of the consortium, settlement against of Lancashire Insurance Company (UK) Limited (L0205) 30% signed line and Starr International (Europe) Ltd (S9207) 45% signed line will be 100% of Order for the purpose of central settlement via the IMR to the Company Market Bureau. The Lloyd's participation (signed lines stated above) is already stated at 100% of Order for the Lloyd's proportion (i.e. 100% Bureau Total Line for Lloyd's) and will form 25% of the combined stamp. Where this mixed stamp is used the signed line for both the Lloyd's 9000 number and company proportions will be shown on the slip.

## LPSO Consortium Reference: 9968 (2024 Year of Account)

### Starr and Lancashire Aircraft Hull Deductible Consortium

<b>Signed Line</b>	<b>Syndicate</b>	<b>Pseudonym</b>	<b>Reference</b>
9.09090	5337	CVS	TO BE ENTERED
90.90910	5370	LRE	TO BE ENTERED

Please note that the above 9000 number forms part of a mixed company/Lloyd's open market and Lloyd's consortium stamp where the consortium stamp shows the company stamp or the Lloyd's open market participation under the Lloyd's Consortium stamp. The Leader of this consortium this year is CVS 1919 OR LRE 3010 who will place either an open market Lloyd's stamp or a company stamp.

Where the company participation forms part of the consortium, settlement against of Starr International (Europe) Ltd (S9207) 45% signed line will be 100% of Order for the purpose of central settlement via the IMR to the Company Market Bureau. The Lloyd's participation (signed lines stated above) is already stated at 100% of Order for the Lloyd's proportion (i.e. 100% Bureau Total Line for Lloyd's) and will form 55% of the combined stamp. Where this mixed stamp is used the signed line for both the Lloyd's 9000 number and company proportions will be shown on the slip.

Please note that the above 7000number forms part of a mixed company and Lloyd's consortium stamp where the consortium stamp shows the company stamp participation under the Lloyd's stamp. The Leader of this consortium this year is CHUBB A2401 and the company participation is CHUBB A2401.

Where the company participation forms part of the consortium, settlement against 20% signed line and Axis Re SE S79132 15% signed line will be 100% of Order for the purpose of central settlement via the IMR to the Company Market Bureau. The Lloyd's participation (signed lines stated above) is already stated at 100% of Order for the Lloyd's proportion (i.e. 100% Bureau Total Line for Lloyd's) and will form 80% of the combined stamp. Where this mixed stamp is used the signed line for both the Lloyd's 7000number and company proportions will be shown on the slip.

Please note that the above 7000number forms part of a mixed company and Lloyd's consortium stamp where the consortium stamp shows the company stamp participation under the Lloyd's stamp. The Leader of this consortium this year is CHUBB A2401 and the company participation is CHUBB A2401.

Where the company participation forms part of the consortium, settlement against 20% signed line and Axis Re SE S79132 15% signed line will be 100% of Order for the purpose of central settlement via the IMR to the Company Market Bureau. The Lloyd's participation (signed lines stated above) is already stated at 100% of Order for the Lloyd's proportion (i.e. 100% Bureau Total Line for Lloyd's) and will form 80% of the combined stamp. Where this mixed stamp is used the signed line for both the Lloyd's 7000number and company proportions will be shown on the slip.

Please note that the above C&C number forms part of a mixed company and Lloyd's consortium stamp where the consortium stamp shows the company stamp participation under the Lloyd's stamp. The Leader of this consortium this year is QBE UK Limited the company participation is QBE UK Limited and American International Group UK Limited.

Where the company participation forms part of the consortium for QBE UK Limited and American International Group UK Limited line 75% signed line will be 100% of Order, as America International Group UK Limited is a non-Bureau company, this will not be settled via DXC. The Lloyd's participation (signed lines stated above) is already stated at 100% of Order for the Lloyd's proportion (i.e., 100% Bureau Total Line for Lloyd's) and will form 25% of the combined stamp.
